LAWRENCE NYONGESA
DevOps Engineer | Cloud Specialist

goldenmoses036@gmail.com | Kenya | Available Worldwide (Remote) | LinkedIn | GitHub

PROFESSIONAL SUMMARY

DevOps Engineer and Cloud Specialist with experience designing and operating production-grade Kubernetes environments on GCP, Azure, and AWS. Skilled in HashiCorp Terraform, CI/CD automation (GitHub Actions, Jenkins, GitLab), and observability stacks (Prometheus, Grafana). Experienced in AI/ML data annotation, image labeling, multilingual language tasks, audio transcription, scientific data review, and quality assurance. Focused on reliable deployments, operational quality, and accurate data for AI/ML workflows.

CORE SKILLS

- Cloud Platforms: AWS, Azure (AKS), GCP (GKE), Linode, DigitalOcean
- Containerization & Orchestration: Docker, Kubernetes, Istio, ArgoCD, Velero, Cert-Manager
- Infrastructure as Code: HashiCorp Terraform, Packer, Ansible
- CI/CD & Version Control: Git, GitHub Actions, Jenkins, GitLab CI/CD
- Monitoring & Security: Prometheus, Grafana, RBAC, TLS/mTLS, HashiCorp Vault, ServiceNow
- Languages & Databases: Python, Golang, Node.js, PHP (OOP), MySQL, SQL Server
- Other: Proxmox, VMware, Odoo, Email Server Administration (Mailcom)

PROFESSIONAL EXPERIENCE

DevOps Engineer | Tollanis
2020 - 2025 | Remote - United States

- Deployed and managed company-wide email infrastructure on Mailcom (Docker + Ansible), achieving 99.9% uptime and significantly reducing support tickets
- Led migration of on-premises services to Azure Kubernetes Service and AWS, completing the project two weeks ahead of schedule with zero downtime
- Deployed and maintained AKS and GKE clusters alongside AWS services using Docker and Kubernetes, enabling scalable infrastructure for growing workloads
- Established firewall and intrusion detection systems with Ansible and Packer, reducing security incidents
- Implemented proactive monitoring with Prometheus and Grafana, improving system uptime by 15%
- Managed incident response via ServiceNow, maintaining a 95% client satisfaction rating

Infrastructure & DevOps Engineer | Scaratec

May 2022 - 2025 | Remote - Germany

- Designed and implemented Kubernetes solutions on AKS and GKE using Terraform and IaC workflows, ensuring high availability for cloud-native applications
- Executed security audits using Linux hardening tools and Terraform; implemented RBAC and TLS/mTLS policies, improving compliance and reducing security incidents
- Managed CI/CD pipelines with Jenkins and GitHub Actions, streamlining software delivery and reducing manual deployment effort
- Automated disaster-recovery drills and backups, ensuring critical data recovery with zero data loss

DevOps Engineer | NextResearch
Apr 2021 - Jul 2023 | Remote - USA

- Deployed Docker containers orchestrated with Kubernetes and Istio service mesh, scaling services to handle 30% higher traffic while increasing automation efficiency
- Implemented CI/CD pipelines with Jenkins and GitLab, cutting deployment errors by 30%
- Managed infrastructure with Terraform, CloudFormation, and Ansible, reducing environment setup time by 20%
- Configured BIG-IP F5 load balancer and HashiCorp Vault for secrets management, improving system security and reliability

Infrastructure Engineer | Trec Consulting
May 2022 - Aug 2022 | Remote - USA

- Designed and deployed IT infrastructure for Unreal Engine streaming using Terraform, Vault, and Python, delivering reliable streaming performance for internal projects

Admin Executive & Server Administrator | Rok Industries Limited
Oct 2018 - May 2022 | Nairobi, Kenya

- Automated server patching with Ansible, maintaining 99% system uptime
- Developed a Golang invoice tracking system with MySQL, eliminating duplicate entries and ensuring accurate billing
- Built a PHP-based employee document management system and a web-based Printing Management System (Odoo + Golang + MySQL), cutting printing turnaround time
- Configured routers, switches, and firewalls via Ansible playbooks, strengthening network security

Server Administrator | Olympic Petroleum Ltd
Jul 2020 - Aug 2021 | Remote - Tanzania

- Re-engineered server provisioning with Ansible and Docker scripts, streamlining deployments and reinforcing security protocols
- Maintained continuous compliance through regular audits and Ansible-based configuration management, preventing configuration drift

System Lead Developer | Syldon Invest Limited
May 2021 - Dec 2021 | Nairobi, Kenya

- Designed and deployed a hostel management system using OOP PHP on Proxmox VMs, streamlining room allocation
- Delivered an online investment portal with PHP and integrated Grafana dashboards for real-time client monitoring

Server Administrator | Skyland Trading Limited
Nov 2020 - Jan 2021 | Nairobi, Kenya

- Managed Windows and Linux servers across multiple facilities using Ansible, reducing manual configuration time
- Maintained backup systems with HashiCorp Vault and VMware Workstation, safeguarding critical data

Website Administrator | Aksornsiri School
Apr 2017 - Sep 2018 | Thailand

- Administered school website on Odoo/Linode; migrated hosting to AWS and configured Kubernetes for scalable deployment
- Automated maintenance with Python scripts, improving site reliability and content update speed

Bioinformatics Subject Matter Expert | TELUS

- Provide bioinformatics subject matter expertise for specialized scientific and AI/ML data projects
- Support scientific data review, validation, annotation, classification, and quality assurance
- Help maintain accuracy and consistency of specialized datasets used in AI/ML workflows
- Apply domain knowledge and attention to detail to improve data quality and project outcomes

ML Data Annotator & Language Specialist | Remote

- Performed data annotation and image labeling for AI/ML training datasets

- Worked on multilingual language labeling and content-related data tasks
- Performed audio transcription, quality review, and error correction
- Supported dataset quality assurance and adherence to project guidelines

EDUCATION

Diploma in Information Technology - Zetech University | 2021
Diploma, Computer Science - Zetech University | 2021
